

TECHNICAL AND MARKETING BULLETIN BP002

Pall Oil Purifiers - HLP/HDP/HNP

Berendsen Fluid Power is now a proud partner of Pall Corporation. We will now provide the Australian market with comprehensive servicing, repair and site set-up services for Pall Oil Purifiers or Vacuum Dehydrators.

Berendsen technicians recently completed in-depth theoretical and practical training of these sophisticated, quality units with Pall and are now in a position to repair and service these units on-site or in our Sydney, Newcastle, Wollongong, Melbourne and Brisbane workshops.

The Berendsen Pall offering will include;

- Sale of new units to suit applications
- Hire of units
- Technical advice and recommendations regarding suitable units - based on customer needs
- Service contracts to maintain the units at optimal performance
- Assisting with correct set up of the unit on site
- Assistance with troubleshooting once the unit is in operation
- Training of site personnel on use and maintenance
- Upgrades and enhancements of older oil purifiers
